---

Professional Summary

Full Stack Developer with strong experience building and shipping **production web applications**, working end-to-end from frontend implementation to backend integrations, databases, and deployment.
Hands-on experience with **React, Next.js, TypeScript, Node.js, PostgreSQL, REST APIs**, and product-oriented development.
Comfortable owning features from design to release, explaining technical decisions, and collaborating in remote, international teams.

Technical Skills

Frontend

- React (functional components, hooks, Context API)
- Next.js (SSR, API Routes, routing, performance optimization)
- HTML5, CSS3, responsive and accessible UI
- UI implementation from Figma with high visual fidelity

Backend

- Node.js
- REST API design and integration
- Backend-for-Frontend patterns
- Authentication, authorization, and role-based access control

Databases

- PostgreSQL
- Supabase (schema design, migrations, RLS, environment separation)

DevOps & Quality

- Git & GitHub (PRs, code reviews)
- CI/CD pipelines
- Environment separation (dev, staging, production)
- Basic unit and integration testing

Professional Experience

Revoluna – Full Stack Developer (Product-focused)

Brazil | Remote
Feb 2024 – Present

- Led the development of a **production-grade web platform** using **React, Next.js, TypeScript, Node.js, and PostgreSQL**.
- Built and owned features end-to-end, from UI implementation to backend integration and deployment.
- Designed and implemented REST APIs and backend business rules supporting scheduling, applications, attendance, and payments.
- Led the implementation of a **role-based access control (RBAC)** system to manage permissions across multiple operational domains.
- Refactored and standardized the PostgreSQL schema, improving consistency, maintainability, and performance.
- Managed database migrations across environments with version control.
- Implemented CI/CD pipelines and environment separation.
- Collaborated closely with product, design, and stakeholders in a real-world, fast-moving product environment.

Revoluna – Product Designer

Brazil | Remote
2023 – 2024

- Led the redesign of the mobile product, translating product requirements into high-fidelity Figma designs.
- Delivered a functional MVP published on **Apple App Store and Google Play**, enabling early user adoption and product validation.
- Implemented custom logic for mobile features such as check-in/out flows and deep linking.
- Worked closely with engineering to ensure design feasibility and smooth handoff.

Tactical – Motion Designer

Dubai, UAE | Remote
2021 – 2023

- Delivered digital and interactive assets for international clients in fast-paced environments.
- Worked remotely with distributed teams, meeting high quality and deadline standards.
- Developed strong communication, ownership, and collaboration skills in global projects.

Education

Bachelor's Degree in Economics
Mackenzie Presbyterian University – São Paulo, Brazil

Languages

- English: Intermediate / Advanced
- Portuguese: Native
